

Chip and Snip

Financial help with microchipping and neutering your dog, cat or rabbit

Victory Homes has teamed up with the RSPCA to offer tenants the opportunity to have their dogs, cats, kittens and rabbits to be microchipped and/or neutered for free.

Benefits of neutering male dogs:

1. Reduced inter-male aggression
2. Reduced roaming (if looking to mate)
3. Reduced urine marking
4. Reduced or absent libido
5. Reduced incidence of some prostatic conditions, anal tumours, testicular tumours

Advantages of neutering female dogs:

1. No seasons
2. No false or real pregnancies
3. Reduced mammary tumours
4. No pyometra (womb infection)
5. No pregnancy associated diseases/conditions
6. No vaginal, uterine or ovarian tumours

Benefits of neutering cats:

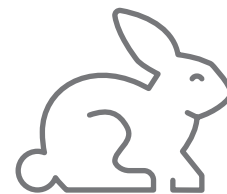

1. No pregnancies
2. Less spraying
3. Reduced roaming, hence less chance of Road Traffic Accidents
4. Less fighting so reduced risk of Feline Immunodeficiency Virus
5. Can be neutered from 4 months of age

The key benefits to having your pet neutered are no litters (reducing the number of unwanted pets), improved health, reduced roaming and improved behaviour. We don't allow any business activity that involves the breeding or selling of animals from your home, and we therefore expect all pets to be spayed or neutered.

Please complete this form if you would like to apply for help with the cost of neutering and/or microchipping your pet. Give your form to a Victory Homes member of staff, or email it to info@victory-homes.co.uk once complete.
